PROJECTS

Student Management System

React.js | Spring Boot | MySQL | Spring Data JPA | Axios

- Built a full-stack student management application with React.js frontend and Spring Boot REST APIs.
- Implemented complete CRUD functionality with MySQL and Spring Data JPA.
- Integrated frontend and backend using Axios, with form validation and error/loading state handling.
- Designed a responsive management dashboard for adding, editing, viewing, and deleting student records.

CineVerse API

Spring Boot | MySQL | JPA/Hibernate | REST API | Swagger | Spring Security

- Developed a RESTful Movie Management API using Spring Boot and MySQL.
- Implemented complete CRUD operations for movie management along with pagination, sorting and filtering.
- Implemented Bean Validation and Global Exception Handling for robust API responses.
- Integrated Swagger/OpenAPI for API documentation and testing.
- Implemented user registration and login with BCrypt password encryption and JWT token generation.

Car Showroom Management System

Java | OOP | Collections

- Developed a console-based Car Showroom Management System using Java and object-oriented programming principles.
- Implemented Encapsulation, Inheritance, Polymorphism, Constructors, and Method Overriding for structured code.
- Designed Person, Customer, Employee, Car, and Showroom classes with real-world IS-A and HAS-A relationships.
- Used ArrayList to dynamically manage cars, customers, and employees alongside menu-driven switch-case controls.

Super Mall Admin Dashboard

React.js | JavaScript | HTML | CSS | Firebase | Cloudinary

- Developed a responsive admin dashboard for managing store-related data.
- Implemented custom login authorization and restricted admin routes.
- Designed a clean and responsive interface for administrative operations.

Real-Time Weather Application

JavaScript | REST API | HTML | CSS

- Integrated a third-party weather API to retrieve real-time weather information.
- Implemented asynchronous API handling using modern JavaScript.
- Displayed temperature and atmospheric conditions dynamically.

CERTIFICATIONS & ACHIEVEMENTS

- Solved 40+ DSA problems using Java.
- Completed Generative AI and AWS Cloud Fundamentals courses on Coursera.
- Completed Infosys Springboard Professional Training Program and participated in 5-Day Google Kaggle Event.
